COURSE:

Chain of Responsibility Awareness

BACKGROUND:

Chain of responsibility is a key initiative targeting those who, by their actions, inactions or demands, put drivers' lives and other lives at risk, and gain an unfair competitive advantage by breaking the law.

Road Transport is a risky activity. Driver fatigue is a major safety hazard for all drivers on the highway. The risk of death or serious injury to a driver and passenger or the occupants of other vehicles in a fatigue related crash is very high.

Chain of Responsibility is a simple process of ensuring that everyone does their bit in managing fatigue risks in the road transport sector.

LEARNING OUTCOMES:

On successful completion of this Chain of Responsibility course, participants will be able to:

- Relate the concept of Chain of Responsibility to their own role.
- Identify recent changes in levels of accountability.
- Understand the 'Responsible person' concept.
- Understand the principals underpinning the concept of who should be held responsible.
- Identify special chain of responsibility provisions for mass, dimension and load restraint.
- Understand the roles of all persons in the chain of responsibility.
- Identify how to readily meet their own individual responsibilities.

QUALIFICATION:

Certificate of competency on successful completion helps demonstrate an employer approach to risk as well as health & safety management.

DURATION:

Online: 45 minutes + quizzes.

Face-to-face: 2-3 hours.

LOCATION:

Online and/or onsite Australia-wide.
